## StoneBridge Antiques in the 90's

In the Fall of 2019, StoneBridge CEO recognized the need for expansion and took the necessary steps to make it happen. The company was fortunate enough to develop an Operation Center directly across the street, as outlined in the 22nd Edition of the StoneBridge Newsletter in the Fall of 2021. This expansion marked a significant milestone for StoneBridge, as it solidified its roots where StoneBridge Antiques had originally begun. With the decision to permanently remain and grow in this location, StoneBridge Headquarters (formerly StoneBridge Antiques) was in dire need of an upgrade. Although the renovations were initially planned to start in the Summer of 2022, customer demand led to a postponement until October. A dedicated team of four individuals, Shane Kennedy, Bill Mattingly, Butch Kennedy, and Trenton Stephens, worked tirelessly for two months to complete the interior renovations in time for the StoneBridge Christmas Party. In February 2023, the team began the exterior work. This essay aims to highlight the reasons why our customers should appreciate the remarkable renovation job done by the StoneBridge Team.

The StoneBridge Team's renovation project at StoneBridge Headquarters was a significant undertaking that aimed to enhance the overall experience for its Operations Team, and community. The team's dedication and attention to detail resulted in a transformed and upgraded space that reflects the company's commitment to excellence. This essay will explore the various aspects of the renovation, including the interior and exterior improvements, and provide examples of how these enhancements contribute to a more enjoyable and efficient customer experience.

**In October, the windows are boarded up in anticipation of the front door installation.**

**StoneBridge Operator and retired Contractor Bill Mattingly spearheaded the entire renovation. He was the lead carpenter on the entire renovation.**

**Former conference room now has a seating area, book shelves, and industrial brick look**

### **Improved Functionality:**

In addition to the aesthetic upgrades, the StoneBridge Team also prioritized improving the functionality of the space. They reconfigured the layout to optimize workflow and efficiency, ensuring that customers can navigate the premises seamlessly. For example, the team redesigned the reception area to provide a more organized and streamlined check-in process. They also created designated spaces for meetings and consultations, allowing for more personalized and focused interactions with customers.

We really enjoyed hosting Decatur County Executive Director Bryan Robbins along with members of the Indiana Economic Development Corporation yesterday.

**Bill Mattingly enjoys a “refreshment” at the StoneBridge Coffee Bar.**

### **Enhanced Aesthetics:**

The renovation project at StoneBridge Headquarters focused on improving the overall aesthetics of the building. The team carefully selected modern and visually appealing materials, colors, and designs to create a welcoming and professional atmosphere. For instance, the interior renovations included the installation of new flooring, fresh paint, and updated lighting fixtures. These changes not only revitalized the space but also created a more visually pleasing environment for customers to

**Enhanced Comfort:** Customer, staff, and Operations Team comfort was a key consideration throughout the renovation process. The team made significant improvements to the HVAC system, ensuring a comfortable temperature and air quality within the building. Additionally, they invested in ergonomic furniture and seating arrangements to provide all guests with a comfortable and relaxing experience. By prioritizing Operations Team comfort, StoneBridge aims to create a welcoming environment that fosters positive interactions and long-lasting relationships.

The renovation job undertaken by the StoneBridge Team at StoneBridge Headquarters was enjoyed by all during its recent Open House. The team's dedication and meticulous attention to detail have resulted in a transformed and upgraded space that enhances the overall team & customer experience. From the enhanced aesthetics to the improved functionality and increased comfort, every aspect of the renovation was carefully planned and executed to ensure customer satisfaction. StoneBridge remains committed to providing exceptional service, and the renovation project is a testament to this commitment. The efforts made by the StoneBridge Team to create a welcoming and professional environment that reflects the company's values and dedication to excellence are at the forefront of the company.
